Safer Internet Day

What Is the Internet?

The Internet is an ‘interconnected network’ of computers

All around the world there are billions of computers connected by Wi-Fi and cables that share information between each other.

You can get onto the Internet using a laptop, a computer, a tablet and even a mobile phone!

What Do You Use the Internet For?

- Watching TV shows
- Watching videos
- Playing games
- Finding things out
- Learning at home

"You can have a lot of fun on the Internet and learn about lots of interesting things!"

However...

Who do you think owns the Internet?

No one owns the internet.

...ides what can be put on it?

No one decides what can be put on.

Not all of the things that are put on the Internet are for children.

The internet can be used by anyone.

Anyone can add things to it.

How to Stay Safe on the Internet

Always **ASK** a grown-up before you go onto the Internet.

Grown-ups can help you to use the Internet safely.

How to Stay Safe on the Internet

Grown-ups can help you to find a website that is fun and safe for children.

Always check with a grown-up if you want to try out a new website.

Remember, anyone can add things to the internet and not everything is suitable for children.

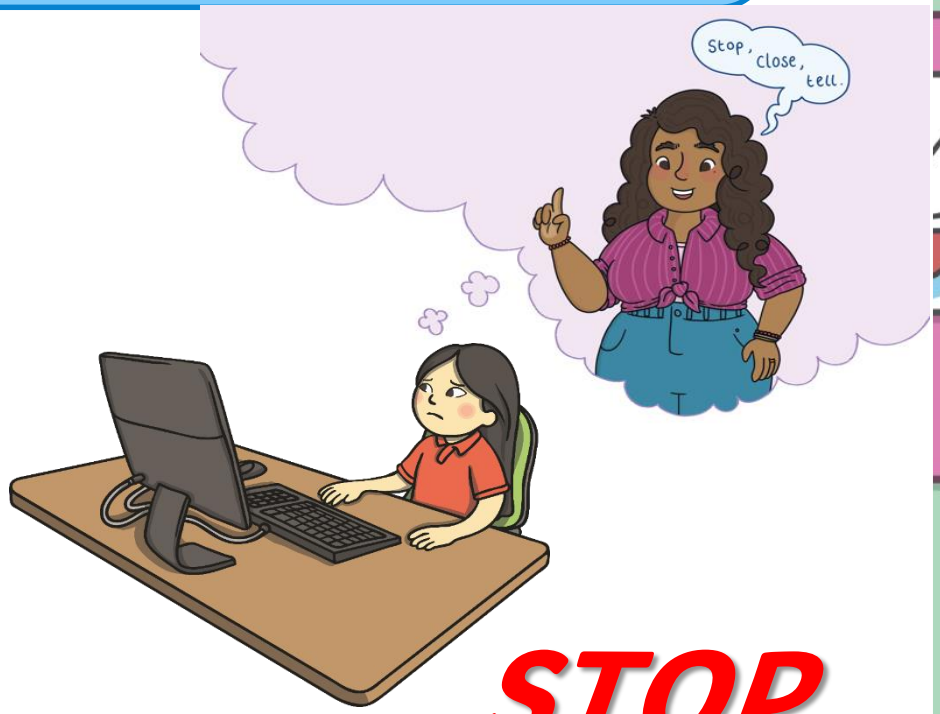
How to Stay Safe on the Internet

Sometimes, things can pop up on your screen and you don't know what they are.

Never click on things that don't look like they should be there!

Always **SPEAK** to a grown up if something pops up that you don't like the look of.



STOP

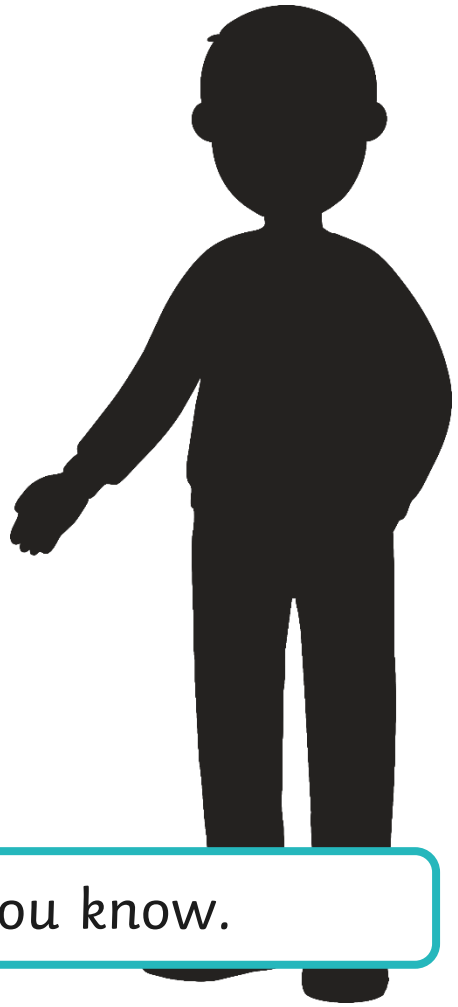
How to Stay Safe on the Internet

You wouldn't talk to a stranger if you met them in the real world.

Never tell people on the Internet your name, where you live, or which school you go to.

Just like in the real world, the Internet has people who can be both kind and unkind using it.



Friends are real people that you know.
